SUMMARY

Recent Telecommunication Engineering graduate with hands-on experience in NOC operations and network engineering through internships. Skilled in monitoring network performance, incident handling, and basic troubleshooting in both enterprise and telecommunications environments. Familiar with 4G/5G network architecture, RF fundamentals, and large-scale network monitoring. Possesses strong interest in network security and vulnerability assessment. Seeking to grow as a Network Engineer in ISP or telecommunications industry.

EXPERIENCE

Network Operations Center (NOC) "Internship"

01/2020 - 04/

Telkom Metrasat Makassar

- Monitored network performance and service availability in a telecommunications environment, ensuring uptime and service quality.
- Assisted in identifying and escalating network incidents related to core and access networks.
- Supported troubleshooting processes for network disruptions, including initial analysis and ticket handling.
- Worked with monitoring tools to observe traffic patterns and detect anomalies in large-scale networks.
- Gained exposure to telecom infrastructure and operational workflows in ISP environment.

Network Engineer "Internship"

01/2025 - 05/2025

PT INTI (Persero) Bandung

- Engineered a network infrastructure upgrade that improved data throughput by 35% on local network by change Switching Infrastructure
- install and configure the BIOS on the router that will be distributed
- Assist senior teams in network implementation projects in client or enterprise environments.

EDUCATION

Telecommunication Engineering

08/2022 - 09/2025

Telkom University - Associate Degree

CERTIFICATES

Cisco Certified Ethical Hacking

09/2024 - Present

Cisco

CCST (Cisco Certified Support Technician)

02/2023 - Present

Cisco

SKILLS

Core Network	Intermediate	RF (Radio Frequency)	Advanced
Hardware	Intermediate	Network Monitoring	Expert
Firewalls	Intermediate	Vulnerability Assessment	Basic
WireShark	Expert	VPNs	Advanced
Linux	Intermediate	Network Design	Advanced
Network Monitoring	Advanced	4G/5G	Advanced
